THE STANDARD INK MANUFACTURERS OF THE UNITED STATES

NOTICE TO THE TRADE

Take pleasure in presenting to you our revised Price List.

We are the oldest manufacturers of Writing Inks and Adhesives in the United States and our 86 years of experience, with the assistance of modern machinery and equipment installed in our new factory, enables us to offer a line of Inks, Paste, Mucilage, Sealing Wax and other specialties that we guarantee to be of the highest standard.

We call your attention to our new style two quart magnum, quart, pint, half pint, quarter pint and other size bottles, also some new labels, which give our line the handsomest appearance of any line on the market.

All goods heretofore put up in old style quart, pint and half pint bottles are now put up in our new full sizes.

All goods are shipped F. O. B. New York at the purchaser's risk. Discounts and terms will be furnished on application. Orders for your winter supplies should be sent to us in time to avoid the necessity of their being shipped during the freezing weather.

Thanking you for past favors and hoping to receive your orders in the future, we remain,

INK

A JET BLACK * WRITING INK

THADDEUS DAVIDS CO., NEW YORK, U. S. A.

At the Fairs of the American and the Mechanical Institutes Seven Silver Medals and Sixteen Diplomas have been awarded to the proprietor for the Best Writing Inks, Sealing Wax, & Stationery.

This ink possesses all the qualities required for a good Writing Ink, and however pale it may appear when first opened it will soon change to a Deep Black.

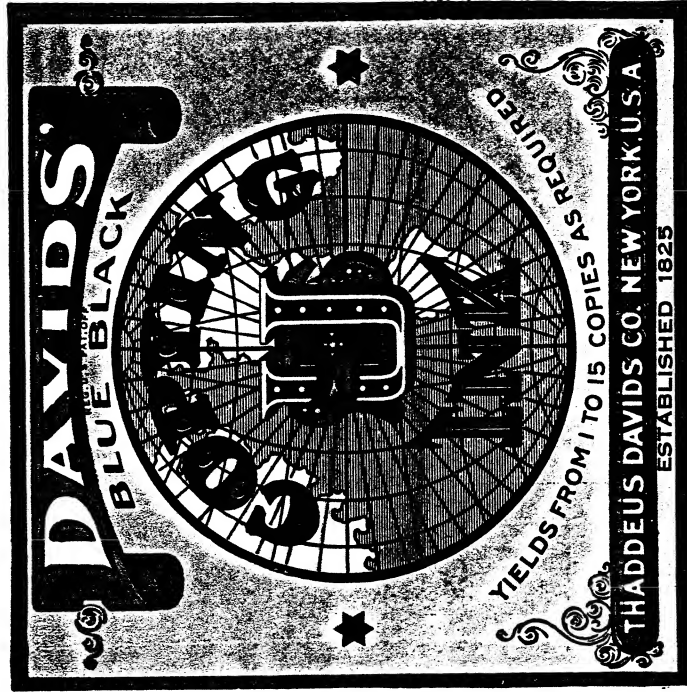

WARRANTED

UNDENIABLY AND UNIVERSALLY conceded by experts to be one of the most permanent writing inks manufactured. Writings made therewith more than half a century since are as intensely black and as well preserved to-day as if written but yesterday.

Although the color may be somewhat pale *at first*, writings executed with this ink rapidly oxidize upon exposure to the atmosphere, and become intensely black.

Note.—This ink is used in large quantities by dyers of false human hair and is known as the best preparation for this purpose.

IN EVERY RESPECT THE STRONGEST and best Copying Ink known. Several good press copies may be taken with this ink months after writing, and more than twenty copies are secured from fresh writings. Since it is not prepared from logwood, but is a true blue-black fluid with a gallate of iron basis, it can be fully relied upon as being strictly *permanent*. Used by the leading Railroad and Express Companies of America.

A perfect ink for Roller Copier Machine work.
